STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/ 2/

Total stocks of leaf tobacco lower than a year ago.

Leaf tobacco stocks in the United States and Puerto Rico totaled 4,763 million pounds as of April 1, 1971. This is a decline of 59 million pounds from the previous April 1. The 1970 crop was in stocks by April 1 with the exception of Maryland and some cigar tobacco. About 200 million pounds were marketed during the January-March quarter.

Maryland, cigar filler, and dark tobaccos led the decline. Flue-cured and burley partially offset each other with relatively minor shifts. Twelve of the 18 domestic types of tobacco reached record lows for April 1. Imported cigarette and smoking tobacco was lower while cigar leaf was slightly higher.

Stocks as of April 1, 1971, included 1,321 million pounds of leaf tobacco under Government loan. This was 47 million more than a year ago. These loan stocks were divided as follows: flue-cured, 802.4 million pounds; burley, 485.3 million; fire-cured, 9.4 million; dark air-cured, 17.6 million; and cigar leaf, 6.4 million.

1/ Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks. (See table in body of report for reported weight basis.) This report is issued quarterly.

2/ All Government loan stocks are reported by grower cooperatives, which are considered dealers for stocks reporting purposes.

CIGARETTE LEAF STOCKS

Blue-cured higher, burley lower, Maryland at record low.

Blue-cured stocks totaled 2,234 million pounds on April 1, 1971, an increase of 27 million pounds.

Holdings of burley at 1,628 million were only 3 million pounds below the April 1970 inventory. The 560.5 million pound harvest was in stocks by April 1 with about 102 million being sold in January-March.

Maryland inventories declined 13 million pounds to 41.1 million. The 1970 crop of 27.6 million is now being sold.

Stocks of foreign-grown cigarette and smoking tobacco total 385.9 million pounds--40 million below last year.

DARK TOBACCO STOCKS

All types at record lows for April 1.

Fire-cured stocks reported at 88.0 million pounds this April 1 were 8.4 million pounds below last year. Virginia fire-cured stocks were 12.4 million; Kentucky-Tennessee Eastern District, 63.2 million; and Western District, 12.4 million pounds.

Holdings of dark air-cured, totaling 63 million pounds, were lower by 5.9 million. Inventories were: One Sucker, 38.2 million; Green River, 21.1 million; and Virginia sun-cured, 3.7 million pounds.

CIGAR LEAF STOCKS

Domestic leaf continues decline.
Imported leaf slightly higher.

Inventories of all domestic and Puerto Rican cigar tobacco totaled 212.8 million pounds on April 1, 1970. This was a drop of 18 million pounds. Holdings of foreign-grown cigar leaf were up 1.6 million pounds to 103.7 million.

Cigar filler leaf accounted for the bulk of the losses with substantial declines in all types. Pennsylvania seed leaf at 108.7 million was down 6.8 million; Ohio, 9.8 million pounds--down 2.0 million; and Puerto Rican, 14.0 million--down 10.4 million pounds.

Cigar binder stocks totaled 55.1 million pounds--up slightly from last year. Connecticut Valley Broadleaf inventories were 4.7 million; Connecticut Valley Havana Seed, 3.0 million; Southern Wisconsin, 23.8 million; and Northern Wisconsin, 23.5 million pounds.

Shade-grown cigar leaf stocks were also slightly higher at 25.2 million pounds. Connecticut Valley stocks of 15.3 million were up 1.0 million pounds and Georgia-Florida was down 1.0 million pounds at 9.8 million.

Stocks of Cuban leaf were down to 0.8 million pounds this April 1. Philippine Islands were up 3.0 million pounds at 45.0 million; Indonesian stocks were 3.5 million; Brazil, 7.3 million; Colombia, 6.8 million; Dominican Republic, 13.3 million; Paraguay, 8.1 million; Mexico, 6.0 million; and other foreign-grown, 13.0 million pounds.

STOCKS OF TOBACCO SHEET

Stocks of leaf represented in inventories of "tobacco sheet" totaled 33.1 million pounds (reported weight) compared with 36.0 million on the previous April 1. Of the total in "sheet" this April, 31.4 million was for use in cigarettes and smoking tobacco, and 1.7 million for cigar binder and wrapper.

1/ Types 11-37 are reported on the basis of packed weight.

2/ Farm-sales-weight equivalent based on unstemmed sweated weight factor.

3/ The instructions for reporting unstemmed cigar-leaf of the domestic types require that dealers and manufacturers indicate the weight basis on which the tobacco is reported, namely, farm-sales-weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of average factors reflecting the percentage reported each quarter in each of these three categories.

1/ Totals include stocks of leaf tobacco sheet. See separate reporting in table 3.

2/ Type 73 is defined as all domestic types of tobacco not otherwise classified; the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the types to which they properly belong.

3/ In previous quarters these tobaccos were grouped together and designated type 90. The increasing volume of imported flue-cured and burley leaf made separate reporting necessary.

1/ Total includes stocks of leaf reported in tobacco sheet. See separate reportings in table 3.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

3/ This table should be considered as representing only the approximate quantities owned respectively by dealers and manufacturers. The quantities shown as owned by manufacturers represent domestic manufacturers only. All Government loan stocks are included as dealers' holdings.

4/ Includes stocks on the Island of Puerto Rico.

5/ For explanation of stocks included in this classification see footnote 2 on page 7.

6/ In previous quarters these tobaccos were grouped together and designated type 90. The increasing volume of imported flue-cured and burley leaf made separate reporting necessary.
